

RACE PARX

THE COMPLETE ATTRACTION PORTFOLIO

Premium Fleet & Track
Infrastructure Solutions

www.raceparx.com

Why Raceparx?

In the competitive landscape of family entertainment, operator success relies on two metrics: maximum throughput and minimum downtime. RaceParx delivers the ultimate electric karting ecosystem designed specifically for the rigorous demands of modern FECs and indoor parks. From next-generation fleet telemetry to dynamic track infrastructure, we provide the complete solution to electrify your attraction portfolio and drive continuous revenue.

THE FLEET

NEXT-GENERATION PERFORMANCE
AND SAFETY FOR ALL DEMOGRAPHICS.

PREMIUM FEATURES

- Uncompromising Safety
- Rider Comfort.
- Operational Convenience
- Immersive Racing Experience

TECHNICAL SPECIFICATIONS & PARAMETERS

Target Age: 3-8 years old

Kart Dimensions: L 1500 mm x W 900 mm / L 60 inch x W 36 inch

Weight Limit: 70 kg / 155 lb

Battery System: 24 V Lithium Ion
Drive Motors: 200W Brushless
Hub Motor x 2

Adjustable Speed Settings: 8 / 16 / 24 km/h (5 / 10 / 15 mph)

Maximum Run Time: 4 hrs

Minimum Track Size Required:
140 sq m / 1500 sq ft

RACE PARX

PURE POWER PRECISION CONTROL

APEX 2.0

Engineered with a massive 5kW powerplant for the ultimate high-speed adult racing experience.

Powered by
**FORMULA
ZERO**

TRACK BARRIERS

ADVANCED BARRIER SYSTEMS FOR MAXIMUM IMPACT
PROTECTION AND DYNAMIC LAYOUT FLEXIBILITY.

**THE STREAMLINED, HIGH-EFFICIENCY
SOLUTION FOR MINI-KARTS AND FLEXIBLE
LAYOUTS.**

Dynamic Configuration: Engineered with a rapid interlocking system, allowing operators to execute quick track layout changes with minimal downtime.

Maximum Asset Protection: Highly resilient materials designed to absorb shock and impact, drastically minimizing damage to your kart fleet.

Universal Application: Fully weatherproof and durability-tested for both indoor and outdoor karting environments.

RACE PARX

DEFINING THE TRACK: **ADVANCED BARRIER SYSTEMS**

Trusted by 250+ operators worldwide

MASTERLINK BARRIER SYSTEM

The illuminated, heavy-duty solution for high-impact zones.

FEATURES & BENEFITS:

- **Core Feature:** Integrated LED lights to enhance the emerging visual experience & night-racing aesthetics.
- **Connection:** Advanced interlocking ratchet system for secure, heavy-duty track alignment.
- **Protection:** Maximum impact and shock absorption.
- **Material:** High-Density Polyethylene (HDPE).
- **Dimensions:** 35.43 in (L) x 8.86 in (W) x 8.86 in (H).
- **Weight:** 13.23 lbs per unit.

RACELINE BARRIER SYSTEM

(Low Wall Protection)

FEATURES & BENEFITS:

- **Core Feature:** Low wall protection optimized perfectly for XLR8 MINI configurations and dynamic interior spaces.
- **Connection:** Seamless interlocking system for rapid, hassle-free track setups and maintenance.
- **Protection:** High-grade shock absorption that protects younger riders and extends vehicle lifespan.
- **Maintenance:** Ultra-easy to clean, maintain, and reposition without heavy machinery.
- **Versatility:** Perfectly adapted for both permanent indoor facilities and modular outdoor pop-up tracks.
